MEMORANDUM

TO: All Residents
FROM: Pam Ward, Property Manager
DATE: October 11, 2011

TRAFFIC CONTROL at GLENKIRK

The County signs for residents to call in to provide feedback for the proposed stop signs at Estate Manor Drive and Lords View Loop have been in place for a few days now. If you would like to offer your comments regarding the addition of these stop signs, please call **703-792-6817** within the next few days. You will get the voicemail for Steve Stevens who is with the Prince William County Department of Transportation.

Residents, as well as non-residents cutting through Glenkirk, are equally welcome to call this number. If you would like your voice heard, PLEASE call and leave a brief message stating your name, address and comment. A majority could possibly rule on this issue! **So if Glenkirk residents want to be the majority voice heard, then we ALL need to call in.** Please remember that the stop signs are being proposed at that intersection in order to help slow down speeding traffic on Estate Manor Drive.

Note: The feedback you may have already provided to our HOA on this issue helped us a lot, but now Prince William County is determining the local level of support for this change. If you support slowing the traffic on Estate Manor Drive, then we need your help, so please call.
